

Formulated For The Professionals

VT-2760 Concrete Butyl (Manhole) Tape

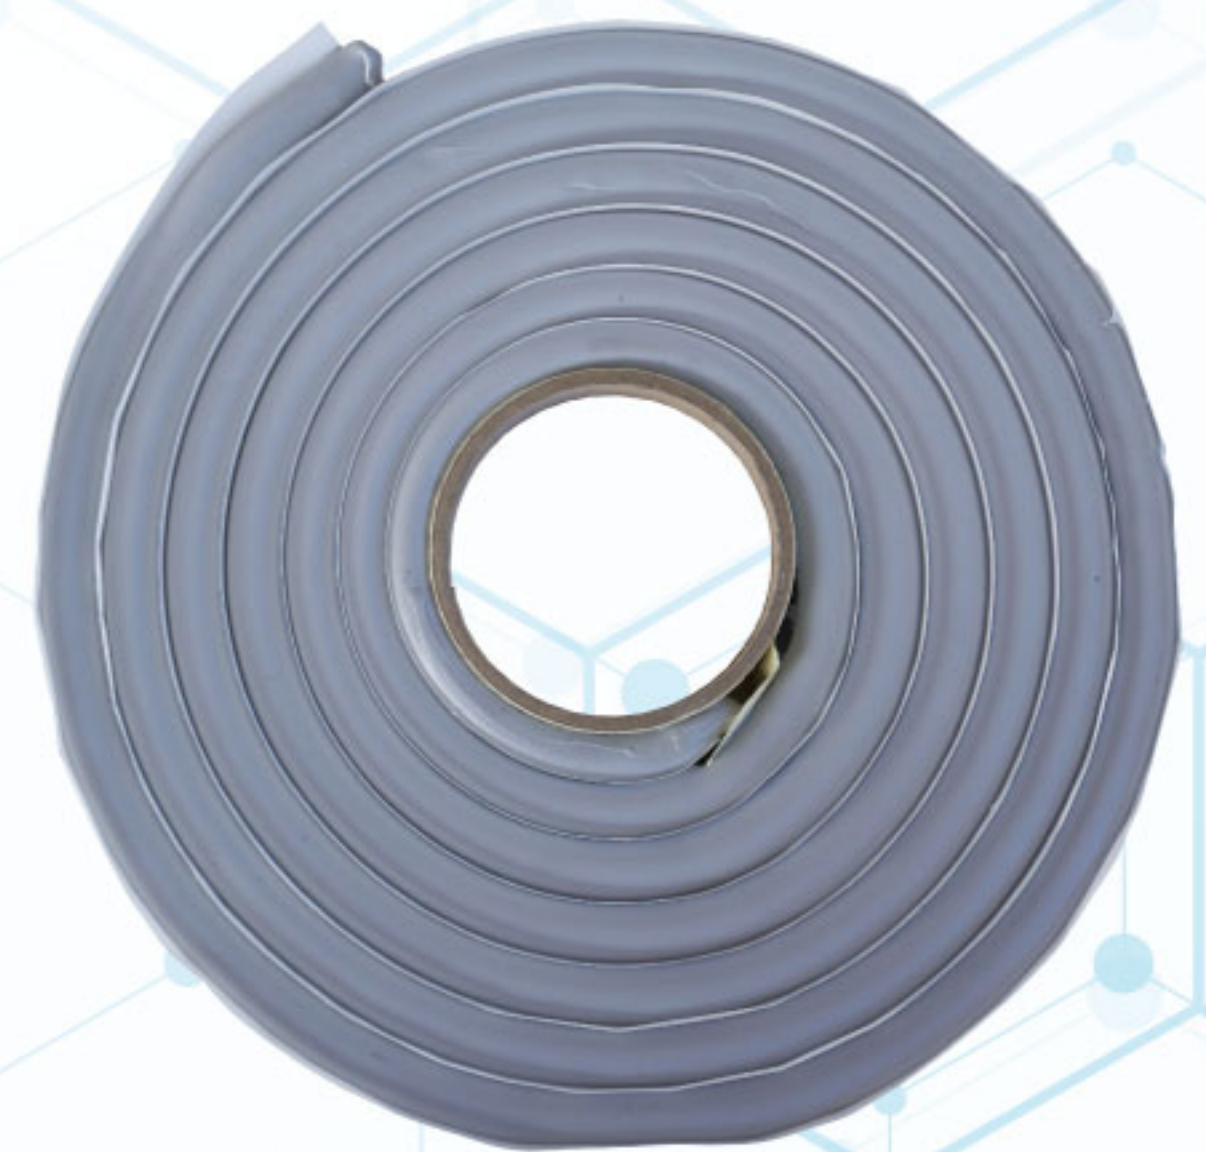

Premium Preformed Butyl Tape in Rope Form

VT-2760 Concrete Butyl (Manhole) Tape is supplied in rope form, primarily used as a gasketing material for fast and efficient sealing of joints in precast concrete. It contains a high proportion of butyl rubber and specially formulated with other solids, hence will not crack, shrink, or harden in its service. It provides excellent adhesion and cohesion to various substrates - concrete, metal, glass, wood, and painted surfaces.

Applications:

- Sanitary Manhole Joints
- Concrete Pipes
- Underground Utility Vaults
- Stormwater Treatment Structures
- Irrigation and Drainage Systems
- Elliptical / Arch Pipe
- On-Site Treatment Tanks
- Grease Interceptors
- Wet Wells
- Septic Tanks

Available color: Grey

Features

- Permanently flexible
- Low moisture vapor transmission
- Long service life
- Highly Compressible
- Tacky Characteristic

Item Code	Content	Carton Quantity
