VT-137 All Purpose Putty

Epoxy Adhesive & Putty

A hand-mixable, fast setting epoxy putty that mixes in just one minute to quickly repair items made of wood, glass, masonry, metal and plastic. It comes in a handy "tootsie-roll" form, contains pre-measured portions of activator and base throughout with the curing agent (activator) encapsulated in the consistency eliminates drips and runs, providing "no mess" applications with no tools required. It cures to a white colour. Once cured, it can be tapped, drilled, screwed, sawed, machined or painted. It resists rust, shrink or pull away. Also resistant to water, temperature extremes, and chemicals.

Applications:

Ideal to fill cracks and voids, seal leaks, fills nails holes, form and repair handles or tools part, repair ferrous metals, rebuild small engine parts, form nuts & bolts, repair stripped threads, form anchor machines, equipment ducts, pipes, housing & appliances, sink traps and auto bodies. Bonds to wood, glass, masonry, metal and many plastics. Suitable for interior and exterior use.

Available colour: White
