

Formulated For The Professionals

VT-430 / VT-430H Vital SBR Latex

Carboxylated Styrene Butadiene Resin

VT-430 / VT-430H (High Solid) Vital SBR Latex is a superior quality waterproofing copolymer latex with a blend of special auxiliary chemicals. It is a water base dispersion of synthetic polymer which will substantially improve the workability of concrete and mortars used for repairs, floor toppings and renders in building and construction industry.

Applications:

Deal for bonding of tiles as well as natural stone, marble, granite, slate and ceramic tiles onto concrete, plaster, concrete block, fibre cement sheet, particle board, old ceramic tiles etc. It is also used for flooring systems, concrete repair, primer coatings, general waterproofing of floors, mortar/renders, grouts etc.

Available colour: White

Item Code	Content	Carton Quantity
VT-4304L	4.0 liter Pail	6 / Carton
VT-43018L	18.0 liter Pail	-
VT-43020L	20.0 liter Pail	-

Features

- Protects against carbonation
- Improves workability and reduce shrinkage
- Increases compression, Flexural, and Tensile strength
