

Formulated For The Professionals

VT-440 VitalShield

Cementitious Waterproofing

VT-440 VitalShield is a two components semi-rigid cement based waterproof coating. It is formulated with specially selected and graded fine quartz and high quality polymer to create brushable, smooth slurry with excellent bond and adhesion to most substrates. It seals pores, voids and cracks of substrates and yet provides a breathable coating which allows water vapor transmission.

Applications:

It is used to provide water and damp proofing coats to concrete structures, bricks and masonry works, plasters etc. It is also used in underground retaining walls, tunnels and basements. Foundation walls and footing subjected to ground moisture can also be protected by it.

Available colour: Cement grey (after mixing)

Item Code	Content	Carton Quantity
VT-4405K	4 kg bag powder + 1 kg pail latex	4 / Carton
VT-44025K	20 kg bag powder + 5 kg pail latex	-

Features

- Puncture resistant
- Durable & seamless coat
- Ideal for positive & negative sides application
