

Technical Data Sheet

VT-143 Vital 3 Ton Epoxy

Issuance date: 31/03/2008

Revision date: 01/08/2021

Revision No.: 21-01

Product Description

VT-143 is a general purpose, 1:1 mix ratio epoxy adhesive. It exhibits a remarkable combination of properties; good resistance towards water, most solvents and automotive oils, longer pot life for large assemblies. VT-143 can be used as an adhesive on various substrates, to fill gaps and surface repairs. It can be sanded, does not shrink upon curing and does not crack if drilled.

Features

- 100% solid, no solvents
- Non-shrinking
- Longer pot life (~120 minutes)
- Good resistance against solvents and common automotive oils

Applications

Suitable for bonding metal, wood, plastic, china, ceramics, tools, and glassware. Not suitable for bonding of polyethylene, polypropylene, PTFE and other flexible materials.

Directions

Surface preparation

- 1. Surfaces must be clean and dry.
- 2. Use solvent to wipe off any dust, dirt, grease, oil or water.
- 3. Roughen or abrade smooth surfaces to improve the adhesion strength.

Mixing

- 1. Puncture tube with the cap and squeeze out equal amounts of resin and hardener on any disposable container or surface.
- 2. Mix thoroughly for one minute with the mixing stick provided.

Application

- 1. Apply a small amount of the adhesive on both surfaces immediately after mixing thoroughly, before it starts to gel.
- 2. Press together and wipe off any excess epoxy with acetone.
- 3. Support the bond for at least 8 hours at room temperature.
- 4. Handling strength achieved in one hour and full cure strength in 6 hours.

Caution

Contains epoxy resin, polyamide hardener. May cause severe eyes and skin irritation. Avoid prolonged contact with eyes or skin. In case of contact with eyes, flush with water for 15 minutes and seek medical attention immediately. In case of skin contact, wipe off and wash with soap and water. Use in well ventilated areas. **KEEP OUT OF REACH OF CHILDREN.**

Storage

Store in a dry and cool place. Not damaged by freezing. If frozen, warm to room temperature.
